The H.A.B.I.T.S Group team is making a significant **IMPACT** by revolutionizing veteran care through our interactive digital platform for well-being that supports increased resiliency and improved overall physical and mental health for its users. The platform offers live yoga, tai chi, meditation, and guided imagery with all the support and personal interaction, without physical contact to thousands of veterans & VA employees. These services are offered daily at a variety of times with no transportation required & offer the accountability of taking a class without having to be inside the class and around groups of people, thus helping to prevent the spread of COVID-19.

Our virtual wellness services are making an **IMPACT** by reducing the need for after-hour virtual CIH clinics and aligning with VHA's intent to encourage self-care among its employees and veterans. We are making a significant **IMPACT** by using our position as a trusted vendor within the VA, holding several multi-year contracts covering over 1.5 million veterans and tens of thousands of staff & employees, to directly address veteran suicide prevention through programming that has been shown to improve the mental and physical state of veterans and trauma survivors, particularly those at risk due to chronic physical or mental injuries.
